## The KIND of BEEF YOU WANT for less money

One of the joys of having a frozen food locker is that you can have just the kind of meat you like . . . prime, choice, or good, aged to suit your taste without any extra charge! You can come into our cooler and select your meat at wholesale, or we can order it for you . . . all at a saving of up to 20%. It will be cut to your instructions and placed in your locker ready for use at any time.

It's a wonderful feeling to have a locker filled with plenty of choice cuts of meat . . . steaks, roasts, and chops that you know are good and which you can enjoy yourself or serve to guests knowing they will rave about it.

## W. Robert Marshman Buried at Rockyford

Funeral services for William Robert Marshman, 36, who died at his farm home seven miles south of Carbon on Monday, September 3, were held Thursday, September 6, from Rockyford United Church. Rev. Malcolm Galbraith officiated and interment was made in the Rockyford cemetery. Gooder Bros. were in charge of arrangements and pallbearers were Albert and Harry Hamers, Ray Zachariassen, Gilbert Harsch, Charles Miller and Charles Kirby.

Born southeast of Carbon on November 13, 1914, Mr. Marshman moved to Oregon with his parents in 1920, returning to farm here in the spring of 1931. He had been in ill health for the past eight months, spending some time in Drumheller and Edmonton hospitals for observation and treatment.

Surviving are his wife, Ruth; two sons, Dennis and Gordon; a daughter, Gail, all at home; a sister, Mrs. C. A. Swanson of Dallas, Oregon.

## Village Council Meets

H. J. Gimbel was re-elected Deputy-Mayor at the September meeting of the Carbon Village Council. It was decided to make application to the Provincial Treasurer for a loan for the water project under the Self Liquidating Projects Act as soon as engineers have completed a survey of the proposed system.

Deputy-Mayor Gimbel was authorized to purchase signs for directing trucks to the recently completed parking lot.

Council agreed to the proposed enlarging of the Drumheller Health Unit area.

Accounts and paysheets completed the business of the meeting.

## HI-SCHOOL HI-LITES

(By the School Cub)

The Carbon Students' Union Friday elected officers for the term ending at Christmas. Officers elected were:

President, Mary Medgesi.  
Vice-Pres., Dennis Barr.  
Secretary, Audrey Martin.  
Treasurer, Myrna Schell.

Dennis Barr is fortunate — this is the second term in succession as vice-president, and he's good.

....

Miss Evone Foster was guest of honor Monday evening at a surprise farewell party at her home. Twenty-eight friends gathered to wish her well in her career as a nurse. Evone leaves Sunday for Yorkton, Sask., where she will commence her nurse's training at Yorkton hospital.

Games were played and a delicious lunch of sandwiches, ice cream and cake served. Miss Foster was presented with a goose neck study lamp and the party ended with a sing song.

## Prairie Industries

FOR MANY YEARS there has been interest in the prospects of establishing industries on the prairies. Almost all the manufactured goods used by the people there are shipped from Eastern Canada or the United States and the people in the West have had included in the prices which they pay, shipping charges from distant points, and in the case of American goods, tariff charges as well. There has been strong argument in favor of eliminating these extra costs by manufacturing articles close to the points at which they are to be consumed.

### Marketing Is One Problem

In a recent issue of the magazine "Chemistry in Canada" the subject of industrial developments on the prairies is discussed at some length. Dr. H. H. Sanderson, director of the Information Services of the National Research Council is one of the writers contributing to the discussion and he suggests some interesting points in connection with the possibilities for marketing goods manufactured on the prairies. He raises the question frequently brought forward in this connection, regarding the feasibility of manufacturing goods for which the raw materials must be brought a great distance. In such circumstances it is usually cheaper to transport the finished article.

### Interest In New Markets

It is also pointed out that many manufacturing plants operating at full capacity would produce more goods than would be required in the immediate area, and the manufacturer would have to sell the surplus on other markets, either in Eastern Canada or abroad. In view of the expansion which is taking place in many parts of the West, a number of industries are looking with interest to this increasing market, where there is demand for all types of household supplies, industrial equipment and other services. Power, transportation, and availability of raw materials are all factors which come under consideration when a new industry is to be established, but there is evidence that there may be considerable progress in the industrial development of the West in the next few years.

Perfect tea is so easy  
to make with

## "SALADA" TEA BAGS

### Funny and Otherwise

Novice (at bridge party): You're an expert at bridge, Mr. Jones. How would you have played that last hand of mine?

Mr. Jones: Under an assumed name.

Student in Art Class: "That, sir, is a cow grazing."

Puzzled Art Teacher: "Indeed? Where is the grass?"

Student: "The cow has eaten it."

Art Teacher: "But where is the cow?"

Student: "You don't think she'd be silly enough to stay there after she'd eaten all the grass, do you?"

"You might stay at home a little bit more," complained the wife of the businessman. "You are everlastingly out playing golf."

"I know my dear," replied hubby, "but you know the doctor told me to live on greens as much as possible."

Reporter: "What shall I say about the two peroxide blondes who had the fight at the baseball game last night?"

Editor: "Why, just say the bleachers went wild."

The hot gossip was getting excited.

"We have got the Devil in chains at last," he cried. Then, after a pause, "But don't flatter yourselves; he can still reach you people in the front pew and even you young fellows at the back of the gallery."

Came a voice from the gallery: "Well, the blighter might as well be loose!"

Lung Specialist—"A man who sings at the top of his voice for an hour a day won't be troubled by chest complaints in his old age."

Pre-Med—"He probably won't even be troubled by old age."

Mrs. Smith was vigorously powdering her face before going out.

"Why do you go to all that trouble?" asked Smith, impatiently.

"Modesty, my dear," was the reply.

"Modesty?"

"Yes—I've no desire to shine in public."

2950

### New Potash Finds In Sask.

REGINA.—Two discoveries of potash in a salt bed under the Saskatchewan plains were reported by Hon. J. H. Brockelbank, resources minister.

Both discoveries were in wells drilled by the Sohio Petroleum company in the Watrous area, about 60 miles southeast of Saskatoon. The two new seams were discovered at a depth of 3,000 feet but neither is thick enough to be mined.

However, Mr. Brockelbank said, they indicate a wider distribution of potash throughout the province.

### B.C. HOUSE SESSION SET FOR NOVEMBER 6

VICTORIA, B.C. — A special session of the British Columbia Legislature will be called Nov. 6 to deal with old age pension legislation, Premier Byron Johnson announced.

The cabinet will submit its recommendations to the Legislature for ratification.

The Legislature has already agreed in principle to a new Federal old-age pension agreement.

### NORTH LAKE

Lac La Ronge in Northern Saskatchewan, famous for pike and lake trout, has an area of more than 450 square miles.

### Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

### PEGGY

HE THINKS I DON'T KNOW HE'S TAKING PICTURES OF ME... TEE-HEE... I'LL LOOK FRIGHTFULLY GLAMOROUS!

HE MIGHT BE A TALENT SCOUT FROM THAT 'STRAW HAT' THEATER ACROSS THE ISLAND! OH GLORY, HOW THRILLING!

HOPE Y'DIDN'T MIND A FEW CANDIDS? I'LL BET YOUR CAMERA ISN'T EVEN LOADED!

FRANKLY, HONEY-CHILE, IT ISN'T! AFTER ALL! HOW FRESH CAN SOME MEN BE?!

—By Chuck Thurston

### ODDITIES IN THE NEWS

Pals in the home of Mr. and Mrs. J. Cuff of West Hoathly, Sussex, England, are an owl, a cat and her kittens, a large mongrel dog and a tortoise. Toots, the owl, usually perches on the back of Jimmy, the tortoise.

A blackbird alighted on a power line at Helsinki, Finland. The line broke and fell on a barbed wire fence. The electrified fence killed six cows and started a grass fire. Police said the bird caused \$1,200 damage.

Goods in the window of a men's wear store at Manchester, England, are numbered. When the shop is closed, customers can put their orders in the letter box.

Thure R. Anderson of New Britain, Conn., lost a wallet containing \$80 while fishing at Lake Pachaug. He figured it dropped out of his pocket while he was freeing his row boat which was grounded in mud near shore. Anderson said he returned the next day and found the wallet and the money perched precariously on a lily pad.

### GIANT PUFFBALL

CLIVE, Alta. — William Knutson found a real jumbo puffball on his farm near here. It was 12 feet high and weighed more than 20 pounds.

### Cow Now Horse O.K. To Shoot

WASHINGTON.—The cow became a horse, and now it's quite all right to shoot the beast.

It's a tale of mystic India, told in testimony at Senate hearings on the foreign aid bill.

A big wild animal of the antelope family and known as the "nehil gae" was causing extensive damage to crops in the field. But the farmers would not harm it because "nehil gae" means "blue cow", and the cow is sacred to the Hindu.

So the Indian government has changed the name to "nehil goa" which means "blue horse". Horses are not sacred, and so now the beast can be killed to protect the crops of food-short India.

### SALES OF MILK, CREAM HIGHER

OTTAWA.—Sales of fluid milk and cream totalled 2,122,591,000 pounds in the first six months of this year and were two per cent. higher than the same period in 1950.

The Bureau of Statistics reported sales in June alone amounted to 356,098,000 pounds.

It is most likely that the hair in a camel's hair brush never even got close to a camel.

## Record Price Paid For "Wildcat" Land

EDMONTON.—A record price for "wildcat" acreage highlighted a sale of crown petroleum and natural gas leases and reservations which netted the Alberta Government \$2,397,149.51.

Texaco Exploration company paid \$353,121 for a half-section, or 320 acres, of unproven oil land about 12 miles southwest of the Leduc oil field. Previous high price for "wildcat" acreage was about \$100,000 for a quarter section.

A. G. Bailey company limited of Calgary bought another 40-acre parcel of exploration land in the Joseph Lake region for \$153,907.

Five parcels were offered in the Leduc field. Scurry oils limited took parcels 10 and 14 for \$79,830 and \$11,831, respectively. Canadian Gulf Oil company took parcels 11, 12 and 13 for \$75,059.20, \$150,087.59 and \$100,059.20, respectively.

The government received a total of \$424,866.99 from sale of Leduc leases while another 56 crown reserve parcels returned a total of \$1,972,282.52. The Texaco and Bailey purchases were the highlights of this latter sale.

While the total return from the sale was far below the record of \$9,122,145.82 for a single sale in February, 1950, Alberta government officials described it as "very successful."

The government has received a total of \$9,126,351.60 from such sales to date in the 1951 calendar year. For the whole of the previous calendar year it took in a record \$35,400,611.45.

Whalebone has none of the properties of bone. It is a fibrous substance which grows on the roof of the mouth of certain species of whale.

## Baking's Easier, Speedier with Wonderful New Fast Rising Dry Yeast!

### CINNAMON BUNS

Measure into large bowl, 1 c. lukewarm water, 2 tps. granulated sugar; stir until sugar is dissolved. Sprinkle with 2 envelopes Fleischmann's Fast Rising Dry Yeast. Let stand 10 min., THEN stir well. Scald 1 c. milk and stir in 1/2 c. granulated sugar, 1/4 tps. salt, 6 tbs. shortening; cool to lukewarm. Add to yeast mixture and stir in 2 well-beaten eggs. Stir in 3 c. once-sifted bread flour; beat until smooth. Work in 3 c. more once-sifted bread flour. Knead until smooth and elastic; place in greased bowl; brush top with melted butter or shortening. Cover and set in warm place, free from draught. Let rise until doubled in bulk. While dough is rising, combine 1 1/2 c. brown sugar (lightly pressed down), 3 tps. ground cinnamon, 1 c. washed and dried seedless raisins. Punch down dough and divide into 2 equal portions; form into smooth balls. Roll each piece into an oblong 1/4" thick and 16" long; loosen dough. Brush with melted butter or margarine. Sprinkle with raisin mixture. Beginning at a long edge, roll up each piece loosely, like a jelly roll. Cut into 1" slices. Place just touching each other, a cut-side up, in greased 7" round layer-cake pans (or other shallow pans). Grease tops. Cover and let rise until doubled in bulk. Bake in moderate oven, 350°, 20-25 minutes. Serve hot, or reheated.

● No more taking chances with perishable yeast cakes that have lost their leavening power! New Fleischmann's Fast DRY Yeast keeps full strength and active right till the moment you use it. Needs NO refrigeration — keeps safely in your cupboard. Try its marvellous results in your next baking.

Order a month's supply!

Queen of the first Fiesta of the North in Dawson Creek, B.C., is seen above as she rode through the fiesta-time crowds. The three-day Fiesta—almost the length of a continent from its Mexican home—brought thousands of northern Canadian residents to the B.C. town near the border of Alaska. Queen of the Fiesta was Miss Dolores Jordan of Grande Prairie, Alberta, who won her crown from contestants Pearl LaLodge of Pouce Coupe, B.C., and Leona Thompson of Dawson Creek, B.C. She is a 21-year-old journalism student at Montana university, U.S.A., and was entered in the contest by the Grande Prairie senior chamber of commerce.

**SYMBOL OF U.S.-INDIA GOODWILL**—Mrs. Indra Gandhi, daughter of Prime Minister Nehru of India, is shown as she distributed American gifts to Indian children at a ceremony in New Delhi, India. The little recipient here is held by her guardian. The gifts were sent by the children of America as a symbol of the links of friendship between the two countries.—Central Press Canadian.

**"THE DEAD LIVE ON"**—Usual group of black-clothed women, some genuine, others publicity-seekers, appeared at Hollywood cemetery to honor 25th anniversary of death of famed screen lover, Rudolph Valentino. Accepted as genuine "woman in black," Ditra Flame arrived at the cemetery at high noon in black limousine, as she had done for many years. Miss Flame is shown saying a solemn prayer after placing two dozen roses at marble crypt. Later, overcome by emotion, the "woman in black" swooned to floor of vault into a faint.—Central Press Canadian.

**SPAIN WELCOMED TO ALLIED CAMP**—Major-Gen. James W. Spry, chief of U.S. military survey team in Spain, is shown at left with Admiral Salvador Moreno, Spain's navy minister, during a visit to the navy ministry. The survey team will ascertain the quantity and type of weapons Spain requires in the new program that makes that country part of the bulwark against communism.—Central Press Canadian.

CHARLOTTE WHITTON  
First Lady Mayor

GRENVILLE GOODWIN  
Died In Office

**WOMAN TAKES OVER OTTAWA MAYORALTY**—Sudden death of Ottawa's energetic mayor, Grenville Goodwin, 53, has thrust reins of office into capable hands of Dr. Charlotte Whitton, senior member of board of control. Nationally known for her social work activities and particularly her expose three years ago of Alberta "baby-farming", Miss Whitton polled a record vote of 38,405, in last December's election. As first lady mayor of a Canadian city, Dr. Whitton intends to continue the social improvement campaign that won her full support from Ottawa's housewives last December.—Central Press Canadian.

2950

**BELIEVED CONNECTED WITH BIG DOPE RING**—Arrested in Hamilton, Ont., on a charge of "conspiring to possess, distribute and transport narcotics," Louis Galloway, above, may be linked with Charles (Lucky) Luciano's international dope ring, according to police. Arrested with him were two others, James C. Stout and Maxine Morrison. Police are seeking evidence to link up the Ontario dope peddlers with those of Montreal.—Central Press Canadian.

## ANNIS STUKUS SAYS PAYROLL ON INCREASE

EDMONTON. — Annis Stukus, coach of the Edmonton Eskimo football team, told a service club (Rotary) that his team's payroll has increased tremendously.

He said the payroll was \$48,000 in 1949 and \$68,000 in 1950, and would continue to increase. He did not give this year's figure, but said:

"We've sold football in Edmonton and can afford it."

—Central Press Canadian.

**"STRONG MAN" PROVED HIS POINT**—World's "oldest strong man," physical culturist Bernarr MacFadden, parachuted 1,500 feet into the Hudson river to prove a point—that a man can still be youthful at 83. The octogenarian bailed out of a private plane near Yonkers, N.Y., clad in several suits of red woollen underwear, two parachutes, a Mae West life jacket and a white crash helmet. Photo shows the muscle man safe in a boat after landing in shallow water some 10 feet from the Jersey shore.

**FRANCE PREPARES FOR U.N. ASSEMBLY**—Scheduled to play host for a second time to sixth session of United Nations General Assembly, to open in Paris on Nov. 6, 1951, French government, profiting from experience gained in meeting needs of 1948 meetings, is busy putting up additional temporary buildings to house conference and secretariat working areas. Photo shows general view of beautiful Palais de Chaillot, scene of forthcoming U.N. assembly, with steel framework of new committee rooms in foreground.—Central Press Canadian.

**CUTTING TEETH**—Year-old twins Susan and Walter Gildea, have been cutting more teeth. And every night Papa and Mama Gildea, of Philadelphia, have been shouldering the twins and walking the floor for hours. Suddenly they decided they would spoil the twins no longer—besides, they were exhausted and needed sleep. So—the twins started crying at 11 p.m. At 2 a.m. they were still going strong. Mama and Papa slept but the neighbors didn't. They called the cops. The cops called on Mr. and Mrs. Gildea and—Papa and Mama went back to walking their teeth-cutting twins.

## Don't Throw Away Victory

Many football victories are actually lost rather than won. By this, we mean the losing team hands the ball-game to its opponents on a platter, usually through fumbles.

Frank Leahy, coach of the Fighting Irish at Notre Dame, has an explanation for this. He says that "tight hands" cause more losses in football than anything else. By this, Leahy is referring to the fact that one of the great secrets of ball handling (taking the ball from the quarterback, catching kicks or passes) is loose, relaxed hands.

The phrase "tight hands" means that the fingers and wrists are stiff and rigid. The ball is very likely to bounce when it is received, and the result is a fumble, or at least momentary loss of control which ruins the split-second timing necessary to the success of a play. Tight hands are a common fault of young football players and even some older ones.

How can relaxation be developed? One good way, of course, is plenty of practice at handling the ball during which the athlete concentrates on keeping loose. This includes sessions of throwing the ball around with a pal. Most good coaches include ball-handling practice at every workout. This does little good, however, unless the ball carrier concentrates on keeping relaxed.

Frank Clair, coach of the Toronto Argonauts, Dominion Football Champions, who played professional football with Washington Redskins, used to carry a football with him everywhere he went while in high school, just to get the "feel" of it. Of course, he didn't take it to classes, but he usually had one under his arm at other times.

Catch that ball as if it was an egg which will break if not treated gently. The fingers should be loose, the wrists relaxed. Practice catching with both hands and with one hand,

particularly the hand with which you are most awkward.

In addition, here are some simple drills which will help you control and relax the muscles of the hands and wrists.

1. Clench the hands hard for a couple of seconds. Then relax and let them go completely limp. Repeat.  
2. Stretch the fingers wide as possible for a couple of seconds. Then let them go loose and relaxed. Repeat.

3. Rotate the hands from the wrists in wide circles, slowly and loosely. Let them flap as freely as possible.

4. Put your fingertips together and push with one hand against the other as hard as possible. Relax, and repeat with the other hand.

5. Move your fingers quickly as if you were practising the piano at top speed.

You can repeat these exercises as often as you think of them during the day. The more the better. They will help teach you to keep your hands loose, will develop hand and finger strength and dexterity, and will make you "hand conscious" in your ball handling.

Join Sports College today and take advantage of the many wonderful services available to athletes and coaches. Simply write a letter to "Sports College, Box 99, Toronto 1, Ontario," stating that you wish to join, and mention this newspaper. Membership is free, and includes a free copy of the Sports College training newspaper, "The Research Guide". Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept.,  
Winnipeg Newspaper Union,  
60 Front Street W., Toronto.

Steel can be made so thin it takes 10 layers to equal the thickness of an average human hair. 2950

## In Memory Of Sir Sandford Fleming

During the Canadian International Stamp Exhibition, being held in the Automotive Building, Toronto, from September 21 to 29 to commemorate the 100th anniversary of Government-issued postage stamps in Canada, a plaque will be erected to the memory of Sir Sandford Fleming, the man who designed Canada's first stamp. Erected by the Canadian Philatelic Society on the exact site where the first stamp was designed in 1851, the plaque will be unveiled by Sir John Wilson, Bart., C.V.O., Keeper of His Majesty King George VI's Philatelic Collections. Pictured here with the plaque is V. G. Greene, president of the Stamp Exhibition, and Sheila Watson, well known Ontario model.

## TRY AND STOP ME!

By BENNETT CERF

Monte Carlo was the scene of a strange occurrence one night many years ago. An elderly gentleman took a seat in the casino and ventured 50 francs on No. 17. The number came up. The old man pointed at No. 17 again and made no move to rake in any of his winnings.

Again the little silver ball came to rest at No. 17! The croupier looked questioningly at the old man, who sat with his head down on one arm and his finger pointed at No. 17 on the board. Five more consecutive times the wheel hit No. 17. The old man's pile of chips was enormous. The crowd stood silent with admiration for his nerve. The croupier had a hurried consultation with the directors, and announced that the bank was broken and the roulette game at an end.

But the winner of the fortune never stirred. He was dead. Furthermore, a doctor testified in court he had been dead ever since the second spin. A dead man broke the bank at Monte Carlo.

In 1582 English was fifth among European languages; now it is used for three-fifths of the world's radio broadcasting.

### Answer To Last Week's Puzzle

—By Al Vermeer

# Great Britain Fears Invasion Of Beetle That Eats Houses

Scientists Believe If Pest Crosses Channel From Europe It May Reach The Western Hemisphere

LONDON.—Great Britain is worried about another "invasion threat" from Europe. This time the worry is the house longhorn beetle, known technically as *hylotrupes bajalus*. It already is causing heavy damage to structures on the continent.

British scientists believe if the pest gets across the Channel it might well go on westward and eventually reach the Western Hemisphere.

The beetle, according to the scientists, attacks only seasoned softwoods, particularly structural wood in buildings. The insect is especially active in the warm months of the year.

The insect is from one half to one inch long. It is black and has two transverse bands of grey hairs on its wing covers.

Scientists of the Forest Products Research Laboratory are seeking to trace all reports that the beetle al-

ready is here, and they are prepared to throw back any widespread invasion.

The insect eggs are laid in cracks in wood and the scientists report that each female produces some 200 eggs. The offspring arrive in about 10 days. They feed for some years—all the while causing damage to the structural wood—and then reach their full size. Once at their full size, the larvae take a resting period of about three weeks, and then they take on the form of beetles.

The beetle has been causing trouble for some 50 years on the continent. They are especially widespread in Denmark, according to reports here, and some sections of north Germany before the war made it compulsory for a home owner to carry insurance against beetle damage. One survey showed that the beetles had been found in the attics of 40 per cent. of all German houses.

The beetle has been known to scientists for many years, but only in recent times has the pest become dangerous. There is one theory that the beetle has been having a hey-day because of the change in roof covering. Time was when roof coverings were mostly of thatched, wood or porous red tiles.

Today, the style is metal, slate or other materials that make for higher attic temperatures. Hence, the pests multiply more rapidly.

## Perfume Lures Coyote To Trap

JEFFERSON CITY, Mo.—A coyote fell for a trap baited with perfume. The state conservation commission said the unusual lure was used when an extremely wise coyote had evaded capture for several weeks.

In desperation, a commission official scented the trap-site with inexpensive perfume. He caught his coyote.

## SMILE OF THE WEEK

The farmer was showing a girl boarder from the city around the farm. Suddenly she spied a group of calves in a field and she exclaimed: Girl: "Oh look at the little cow-lets."

Farmer: "Them is bullets."

## Helpful Hints

Fruit stains can be removed from the hands by rubbing them with a fresh tomato (green or ripe). After this, wash thoroughly with soap and warm water.

A coat of clear shellac over a cracked window pane will keep it from leaking until a new pane can be installed.

To make whitewash cover a half-bucket of lime with about two inches of water. Allow this to stand for 24 hours to slake, or until the consistency of paste. Dip out a portion of this slaked lime into another bucket and thin with water to the desired consistency. Add 1 teaspoonful of bluing to ½ bucket of whitewash, and ½ pint of salt to make it stick.

To keep a man's hat in good shape for wearing, hold a wire garment hanger by the hook and pull the cross wire down to form a square. When hung in a closet it will hold a hat crown easily.

## BETTER MOUSETRAP

BRIGHTON, England.—David Brown thinks he has found a better mousetrap, but there's nobody beating a path to his door. Brown brought in a six-foot boa constrictor from South America to roam round his kitchen and keep the mice away.

## VIRGIL

# CANADIAN FASHIONS

Brown velvet collars Gordon's cocoa suit and is used as outlined applique on the hipline and again high on the jacket. Cuffs end the close fitting sleeves. The skirt is reed slim.

## Quick Canadian Quiz

1. What is the role of the Speaker of the House of Commons?
2. Which is the largest of the three Prairie provinces?
3. In 1939 the federal government spent \$459 million, provincial and municipal governments spent \$752 million. Which was last years largest spender?
4. How long is the Canada-United States boundary?
5. Canadians paid \$61 million in personal income taxes in 1939. How much in 1950?

When a hummingbird hatches out, it is only the size of a bee.

## : Selected Recipes :

Cocoonut Jumbles are good fillers for the cookie jar — and for the family! After the mixture is blended and rolled, it's cut with a doughnut cutter, and after a quick session in the oven, the cookies are ready for all occasions.

## COCOANUT JUMBLES

One half cup butter, ¼ cup sugar, 1 egg, beaten, 1¼ cups sifted flour, ½ tsp. baking powder, ¼ tsp. salt, 1 tsp. vanilla, 1 egg white, slightly beaten, shredded cocoanut. Cream butter until soft. Add sugar gradually, continuing to cream. Add

egg, blend well. Sift flour, baking powder and salt together, add and mix well. Add vanilla. Roll out about ¼-inch thick on lightly floured board, cut with doughnut cutter. Brush tops with egg white; sprinkle with cocoanut. Bake in hot oven, 400 degrees F., 8 minutes or until delicate brown. Yields about 4 dozen.

## Most Valuable Stamp To Be On Display

TORONTO, Ont.—The rarest and most valuable stamp in the world, for which offers of more than \$60,000 have been refused, will be on display at the Canadian International Stamp Exhibition in the Automotive Building, Toronto, it has just been announced by V. G. Greene, president of the sponsoring organization.

This exhibition, which will be officially opened by the Governor-General of Canada, will commemorate the 100th anniversary of Government issued postage stamps in Canada as well as the 100th anniversary of Postal Administration.

The world's rarest philatelic gem, an 1856 British Guiana one cent stamp, is said to be the only British Empire stamp missing from the famous collection of His Majesty King George VI. It was found in 1873 by a young collector, L. Vernon Vaughan, while searching through family papers at his home in British Guiana and was sold to a neighbour for only six shillings.

Despite intensive searchings by philatelists and stamp collectors all over the world, no other copies of the 1856 British Guiana one cent stamp have ever been discovered.

Some of the greatest and most rare collections of stamps from the four corners of the globe, including a portion of the famous collection of His Majesty King George VI, will be on display at the Canadian International Stamp Exhibition. The various exhibits will be judged by an international jury of eminent philatelists from various nations.

Some of the stamps on display will portray the growth and development of countries; others will depict the progress made in transportation or other fields of endeavour; some will tell the story of architecture, of music, religion, medicine, wars and history; others will be of prominent figures.

During the exhibition, tribute will be paid to the memory of Sir Sandford Fleming, the man who designed Canada's first postage stamp back in 1851. Another highlight will be the demonstration of various methods used in transportation of the mails including an Indian runner, pony express, stage coach, wood-burning locomotive and helicopter.

## HAM, \$13.75 A POUND

COLUMBIA, Mo.—Boone county's champion country-cured ham, weighing 14½ pounds, sold for \$199.38. That's \$13.75 a pound. The ham was entered in the county fair by J. B. Mead of Harrisburg, Mo.

# Britons Plan To Conquer Mt. Everest

Climbers To Attack Mountain From New Direction—Travel Lightly

LONDON.—A party of British mountaineers is planning to sneak up on unconquered Mount Everest this fall from a new direction. Daring, hope and a few new ideas are their allies.

They realize they have only a slim chance of climbing to the top of the world's tallest mountain. But if all goes well, they may make the conquest of the 29,000-foot Himalayan peak easier for some future expeditions.

Leader of the party is fair-haired Eric Shipton, 43, veteran of three previous Everest attempts, who said recently:

"One day Mount Everest will be climbed . . . it may be achieved at the next attempt. There may be another 20 failures."

Shipton's party, approaching through Nepal, will move up the south side of Everest in virtually-uncharted territory.

The climb will be attempted in October and November at the end of the monsoon season. Previous tries were made in May and early June before the warm monsoon winds thawed the snow and started avalanches.

The party will travel light, without even a radio or oxygen. The climbers will use nylon ropes for the first time and will shelter in lightweight tents of a new design.

Shipton said the party hopes to resist fatigue better if it is not burdened with masses of equipment.

## Dumb Blonde Still Has Chance For Marriage

CHICAGO.—The dumb blonde has just as good a chance of grabbing a husband early as smarter girls, a psychologist said.

That goes for dumb brunettes and redheads too, said Dr. George K. Bennett, president of the Psychological Corporation, New York.

He told the American Psychological Association, opening a six-day convention, that aptitude tests given to high school seniors can do a good job of predicting what kind of work the boys and girls are most likely to succeed in.

But the tests "just do not pick out the girl who is going to get married early. Test scores recorded by the girls who later got married show no pattern whatever. They vary widely, and average near the average for all the high schools girls."

"We might draw the conclusion that the traditional 'dumb' blonde—and this applies to the brunette and redhead as well—has neither a better nor a poorer chance of finding a husband quickly than does her sister of greater skills and intellectual attainments."

Other findings were:

Boys who later became medical students rated higher as a group on all of eight tests, especially in verbal reasoning, numerical ability, spelling and grammar.

Most of those students now seeking college degrees scored higher in knowledge of words and mechanics of English.

## ANSWERS TO QUICK QUIZ

ANSWERS: 5. \$612 million. 3. The federal government: \$2,284 million compared to \$1,821 million. 1. He interprets the rules of procedure. 4. 3,986 miles. 2. Alberta.

(Materials supplied by the Editors of Quick Canadian Facts, the handbook of facts about Canada.)

Think Right—Eat Right—Live Right

## GEMS OF THOUGHT

### GOODNESS AND VIRTUE

There is no poverty where there is virtue, no riches where virtue is not. —Chinese Proverb.

The fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance; against such there is no law. —Galatians.

There is no door through which evil can enter, and no space for evil to fill in a mind filled with goodness. Good thoughts are an impervious armor; clad therewith you are completely shielded from attacks of error of every sort.—Mary Baker Eddy.

There is never an instant's truce between virtue and vice. Goodness is the only investment that never fails.—Thoreau.

The best way to overcome evil, is to be always busy doing good. —Bishop A. R. Beverly.

Be not ashamed of thy virtues; honour's a good brooch to wear in a man's hat at all times.—Ben Jonson.

## Patterns

Thrifty! Use Scraps!

C7320

by Alice Brooks

SO much gay color! SO little work and fabric! All you need is a few scraps for these aprons and matching potholders. Sewing, embroidery and applique—all easy!

Pattern C7320; cutting charts; transfer of pockets and potholders. To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Winnipeg Newspaper Union, 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Needleworkers! Have you seen our 1951 Alice Brooks Needlework catalogue? Send Twenty-five cents for your copy today! Illustrations of patterns for crochet, knitting, embroidery, and other fascinating handwork. A Free Pattern is printed in the book.

There are five copies of the Gettysburg Address in Lincoln's handwriting still intact. 2950

## OUR COMPLETE SHORT STORY—

**CAUTION :: All The Business In The World Doesn't Make Up For The Life Of One Kid.**By **RUSSELL WILSEY**

MR. WRIGHT eased up to the prominent "STOP" sign at the cross-roads, then shot his car past it without changing gears. Beside him Mr. Thornton watched the unwinding ribbon of the road.

"You'll take care of that order as soon as possible, Mr. Wright?" Mr. Thornton asked, removing his large cigar from his mouth to do so.

"Yes, sir," Mr. Wright answered, "first thing in the morning."

They drove in silence for a few minutes, then Mr. Thornton remarked, "How's your wife? She had some sort of accident lately, didn't she?"

"Uh huh, but she's fine now. Too bad you couldn't stay for dinner to-night. My boy's doing pretty well, too. Got a new position. I thought he might come into the business with me, but he . . ."

Mr. Thornton dropped his eyes to his wristwatch. "Eleven-thirty!" he snapped. "What time did you say that train left?"

"Eleven-fifty-eight," Mr. Wright answered, frowning himself as he saw the deep ridges in his companion's brow.

"Well, I don't want to miss that train," Mr. Thornton said quickly.

"I've got an important meeting in Devens. It wouldn't pay me to miss it."

Mr. Wright's answer was to hurry along a little faster. The trees and grass at the side of the road blurred into a line of green.

They whipped past a side road and almost instantly a motorcycle roared out after them.

For a moment Mr. Wright considered trying to escape, but the 'cycle was coming too fast. He slowed the coupe and brought it to a stop by the side of the road.

The motorcycle drew up to the coupe and cut in front of it. The tall, trim policeman silenced his engine, then dismounted and walked towards the car.

"If you're saving somebody's life, pop," the cop said sarcastically, "let's go. But if you were hitting sixty-five miles an hour just 'cause you felt like it, I'm afraid I'm going to have to give you a ticket."

"Now listen here . . ." Mr. Wright started heatedly.

"Take it easy. Let's see your license."

Reluctantly Mr. Wright held out his key case.

"The registration papers in here?" the cop asked. Mr. Wright nodded.

Unsnapping the inside pocket of the case, he removed the papers, eyed Mr. Wright and the physical description on his license, then strolled to the front of the car to check the plates with the registration.

In the car Mr. Thornton glanced at his watch and turned to glare at the policeman.

"We'll never make that train if this goes on all day. What's the matter, Wright, can't you slip that kid some cash and get us out of here?"

"I'm afraid not."

The cop returned, lifted one foot to the running board, and opened a leather-covered pad on his knee. "All right, Mr. Alan E. Wright," he said, without looking up from his pad, "I'll have a little present for you in a moment, if you'll just be patient."

Mr. Thornton squirmed in his seat. "Listen, young man, why don't . . ."

The policeman looked up. "What's your name?" he asked, calmly surveying Mr. Thornton.

"Thornton, Richard Thornton. I'm from Devens City, and . . ."

"What are you doing out here?" the cop broke in.

"I had some business with Mr. Wright. What business is it of yours?"

"Just curious," the cop answered evenly.

"Well, I've got to catch a train in ten minutes. I'm a busy man, and I can't spend valuable time sitting way out here in the . . . the . . . the country."

Turning to Mr. Wright, the cop went on, "Listen, Mr. Wright, I suppose this guy means a lot of business to you, so you're willing to break the speed limit to help him get his train. Maybe you didn't realize a lot of your neighbors live around here. The kids are supposed to keep off this particular highway, but sometimes they forget. All the business in the world doesn't make up for the life of one kid, Mr. Wright."

He ripped out the ticket and passed it in to Mr. Wright, along with his key case.

"Okay, pop. Just use your head the next time."

Folding his pad up and stuffing it into one of his pockets, the cop strolled to his motorcycle. The 'cycle's engine barked into life and the cop sped off in the opposite direction.

Mr. Wright started his own engine and the coupe continued to the railroad station, at a decidedly lower speed.

"Pop!" Mr. Thornton snarled in a peevish outburst. "Why that fresh, young kid!"

Mr. Wright laughed ruefully. "Well, in my case it wasn't too bad. That was Ted, my son."

**Edmonton Youth Climbs 11,000 Ft. Mount Huber**

EDMONTON. — Fourteen-year-old Paul Cross is the pride of Edmonton section of the Alpine Club of Canada. He qualified for active membership by climbing 11,000-foot Mt. Huber in the Rocky Mountains.

Paul has been interested in climbing since he was seven or eight years.

He "warmed up" for his hike up Mt. Huber by climbing 8,900-foot Mt. Wiwaxy and going part-way up two other mountains just a week before.

"The club is quite proud of Paul," said Gladys Hartley, chairman of the Edmonton section.

"He is believed to be the youngest member ever to make the climb."

**Licence Plates To Reflect Light**

EDMONTON. — Motor licence plates in Alberta next year will reflect light at night. Provincial Secretary C. E. Gerhart said the plates will be black, with reflecting pearl-gray letters and numerals.

**PRIZE WINNERS**

TORONTO. — Mrs. Betty Robinson, Saskatoon, Sask., won first prize in the Canadian National Exhibition General Class Knitting Contest. Mrs. Jean Anderson, Vancouver, B.C., won first prize for the best child's cardigan.

The colachan or candlefish which is found on the Pacific coast is dried and used as a lamp by Alaskan Indians.

**THE TILLERS**

WHAT'S THAT, PAW?

A CASE OF CANNED PINEAPPLE!

I HAVE SIX MORE CASES IN THE TRUCK. I GOT 'EM FOR HALF PRICE AT A SALE!

BUT I THOUGHT YOU DISLIKED PINEAPPLES!

I HATE 'EM.

BUT AT THIS PRICE THEY'LL TASTE DELICIOUS!

—By Les Carroll

—Central Press Canadian.

**WESTERN BEAUTY** — Chosen from 18 contestants, 19-year-old Inez McLeod, (above), of Victoria, B.C., was crowned "Miss Pacific National Exhibition of 1951," succeeding another 19-year-old, Delle Calhoun of Burnaby, B.C. The pretty hazel-eyed dental assistant received \$1,000 in prize money.

**1951 Immigration Figures Favorable With 1928**

OTTAWA. — "Immigration figures for this year will probably compare favorably to those of 1928 when 160,000 persons made Canada their new home," stated Hon. Walter Harris, minister of citizenship and immigration at an informal talk to the members of the Y.W.C.A. National Assembly here.

At that time more settlers came to Canada than any other year except for the time when the west was opened up," he explained.

The post-war years from 1946 to 1948 brought many immigrants because of both "humanitarian and selfish reasons." Mr. Harris went on to say that the selfish reason was to obtain manpower to develop Canada's natural resources.

During that period, most of the settlers came from central Europe but this year "persons from northern Europe and the United Kingdom will be the dominant figures."

Mr. Harris outlined for the group the steps in becoming a Canadian citizen. "Trained officers overseas interview prospective immigrants and select those with the necessary qualifications."

The principles which the selection officers adhere to are that the applicant must be non-Communist, have an acceptable literary standard, and that his skill or profession must be necessary to Canada's economy.

He praised the work of the service organizations in Canada who helped acquaint the new citizen with their country. "Without their aid we would have to employ a staff of liaison officers and that would be much too expensive." He went on to say that without the work done by such organizations as the Y.W.C.A. the quota of immigrants might have to be lowered.

The colachan or candlefish which is found on the Pacific coast is dried and used as a lamp by Alaskan Indians.

2950

**: Western Briefs :****In Memoriam**

MEDICINE HAT, Alta. — Names of 80 pioneers have been branded into the walls of the new Medicine Hat museum.

**Costly Chicken**

MOOSE JAW, Sask. — Alex Wright of Moose Jaw was fined \$30 and costs for shooting a prairie chicken out of season and having a loaded rifle in his car. His rifle was impounded.

**Busy Weekend**

PRINCE ALBERT, Sask. — A total of 627 cars carrying 2,540 passengers visited Prince Albert national park during the Labor day weekend, park officials said.

**Horses Sold "Dirt Cheap" At Coast**

VANCOUVER. — Top thoroughbreds sold for low prices at the first annual dispersal auction of the Lavender Stock Farms.

Two Overdrive fillies, both greys like their old man, brought the best prices. Howe, Thomas and Howe got one for \$650, highest bid of the day, and the other went to Dr. H. R. Ross for \$550.

A once proud stallion, Royal Reigh, was sold for \$50. Other stallions went for little, too, Bob's Way bringing \$40; Ted Lewis \$100 and Black Lancer \$40.

There were some real bargains among the mares. All had sucklings and had been bred back.

So Clay Puett, in buying Little Pine and Pharima for \$375, actually bought six horses.

A furlong is 660 feet.

**Dixon Nominated**

CALGARY. — Arthur J. Dixon, vice president of the Calgary Social Credit Constituency Association was nominated as candidate for that party when a by-election is called to fill the vacant federal seat of Calgary West.

**To Import Eggs**

WINNIPEG. — Manitoba's egg and poultry markets are operating in reverse. For the first time in at least 20 years the province is importing quantities of both eggs and poultry from the United States.

**Hail Brings 100 Claims**

REGINA. — A hailstorm that hit the extreme southeast corner of the province Aug. 23 resulted in the filing of about 100 damage claims with the Saskatchewan Municipal Hail association, J. S. Gisby, secretary of the association, said.

**Invents Unique Brace**

VANCOUVER. — A doctor at Children's Hospital here has invented a brace which he believes will "almost lick" congenital hip dislocation. Previously children were forced to don heavy, waist-high casts.

**Urges Uniform Speed**

REGINA. — A uniform speed limit for cars and trucks was advocated by Angus Mitchell, secretary-manager of the Saskatchewan Motor Transport association. Mr. Mitchell said that on narrow highways automobiles were always cutting into the opposite lane and then in front of trucks they were endeavoring to pass. A large number of accidents took place as a result, he said. Present speed limits on Saskatchewan highways is 50 miles an hour for cars and 40 for trucks.

The Anglican W. A. will hold a Sale of Home Cooking in the Egg Grading Station Saturday, September 22, from 5 to 6 p.m.

Mr. and Mrs. Ed Martin motored to Billings, Montana, Saturday and returned Monday. They were accompanied by Miss Fan Etta Zimmerman who was returning to Billings following a visit at the Martin home.

Mr. and Mrs. Jack Briggs have moved to the Elnora district, where Jack has purchased a farm.

George Susan spent several days in Calgary last week.

Reuben and Bill Ohlhauser took Emmett Foster to his home at Bow Island on Friday. Mr. Foster and Mr. Spurrier were lessees of the Central Service Station until recently and the latter is now working for the municipality at Bow Island. Mrs. Spurrier is at present visiting with Mrs. Ruth Marshman.

Mrs. Grace Patton Defoor will be in Carbon Saturday, September 15, to resume classes in piano. Those wishing piano lessons please meet her at the school. Lessons from 10 a.m. to 6 p.m.

Born to Mr. and Mrs. Wilf Skerry at the Linden Nursing Home on Sunday, September 9, a boy.

Mr. and Mrs. Dwight Graff and family and Mr. Joe Bramley of Red Deer visited with relatives and friends in Carbon over the weekend.

Mr. and Mrs. Jack Adams and family of Trochu were Carbon visitors Sunday.

Miss Anna Carlson has her left leg in a cast as the result of an injury sustained when she twisted her ankle and chipped a bone.

Mr. Frank Halstead of Calgary spent Sunday and Monday visiting Mr. and Mrs. Leo Halstead and Mr. and Mrs. E. Maxwell.

First grain of the season was delivered to a local elevator Friday when John Reid hauled in a small load of barley to the Alberta Pacific elevator. The agent, Ted Schmidt, reports the barley graded 2 C.W. yellow and weighed 46 pounds to the bushel.

Daun Buyer of Carbon, a member of the Carbon Grain Club, represented southern Alberta farm clubs at the 4 H Congress at Bozeman, Montana, Aug. 27 to 31. Other Alberta representatives on the tour were Jean Syrnky of Hines Creek in the Peace River district, Marie Scheidegger of Ohaton and Ronald Goglin of Tofteld. Chaperoning the group were Miss B. Andreassen, home economist of Westlock, and Mr. J.L. Anderson, district agriculturist of Lethbridge.

For the past five years Alberta and Montana have been sending representatives to farm young people's gatherings to exchange club work ideas and create good will between the neighboring farm countries. The trip to Montana is considered the second highest award a Junior Agricultural Club member can achieve, the trip to Toronto being the highest.

The Congress lasted four days and compares to Leaders' Week, Club Week and three-day eliminations at Olds.

The theme discussed at Bozeman was "Working Together for World Understanding." The topic was discussed by delegations from Alberta, U.S., Scotland, Switzerland, Norway, and exchange college students from Haiti, Hungary and Hawaii.

Before returning home the group spent three days touring Montana points of interest, visiting Yellowstone Park, Lewis & Clark Caverns, Glacier Park and Waterton Park. Club members will vie for the honor of making the trip again next year.

Daun Buyer has a number of years of club work to his credit. He is a member of the Avondale Calf Club, Carbon Grain Club and a forage club. Hard work enabled him to qualify for the honor of attending the Congress.

Daun, in agreement with 4-H club leader Paul Moore, is of the opinion that one leaves the Congress a different person, with a different attitude toward foreign countries than when one came. As the girl delegate from Scotland stated: "We are the same in the big things, but differ in the little things. It is in these little things we must learn to understand each other."

Dale and Dusty Poxon, Morris Switzer and Bill Slipp attended the Stampeder-Roughrider football game in Calgary Monday.
